Jayesh mali T084 Pract_4 Wireless Sensor Network

The screenshot shows the OMNeT++ IDE interface. The main window displays the 'Net1.ned' file, which contains a network diagram. The diagram shows a 'channelController' (represented by a sun icon) connected to a 'host[numOfHosts]' (represented by a laptop icon). Below the host, there is an 'ap' (access point) icon. The Project Explorer on the left shows the file structure, including 'wizardpage.xswt'. The Properties and Outline panels are visible at the bottom. The status bar at the bottom indicates 'Launching Net1: (42%)'.
